Projects

KrishiSense: Asian Food Security Monitor | [Live Link](#)

Oct 2025 - Nov 2025

- Designed an interactive Power BI dashboard tracking 20 years of Asian food security trend
- Engineered a robust Star Schema data model utilizing Power Query and 30 DAX measures
- Quantified that political instability impacts malnutrition rates twice as heavily as agricultural production deficits
- Tech used:** Power Query for ETL, Dynamic Slicers, Custom Tooltips, Interactive Navigation

Demographic Insights Analysis | [GitHub](#)

Mar 2025 – Apr 2025

- Analysed 22 years of demographic data to uncover socioeconomic trends across multiple global indicators.
- Processed datasets using Python and Pandas, integrating heatmaps and linear regression predictive modelling algorithms.
- Identified key population growth correlations, improving demographic trend forecasting accuracy for future predictive analysis.
- Tech used:** Python, Pandas, NumPy, Matplotlib, Seaborn

Global Wellness & Prosperity Dashboard | [GitHub](#)

Mar 2025 – Apr 2025

- Developed an interactive Excel dashboard to visualize 22 years of global health and economic metrics.
- Integrated dynamic charts, advanced pivot tables, and custom slicers for comprehensive dataset filtering capabilities.
- Streamlined complex macroeconomic data analysis, enabling rapid extraction of crucial global prosperity performance insights.
- Tech used:** Ms Excel

Training

Python Programming | Infosys Springboard

Apr 2025 - Jul 2025

[Certificate Link](#)

- Completed an intensive, 100-day data science and Python programming skill development program hosted by Infosys.
- Mastered probability, statistical inference, machine learning concepts, and advanced data visualization techniques using Python.
- Attained practical competency by successfully deploying data-driven models and completing all mandatory technical assignments.

Certificates / Certifications

Full Stack (MERN) with GenAI

Jul 2025

Coursera — [Certificate Link](#)

Social Networks

Apr 2025

NPTEL — [Certificate Link](#)

Skills

Languages: Python, SQL C++, JavaScript

Libraries & Frameworks: Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, Power BI, Ms Excel, Git, GitHub

Domain Skills: Machine Learning Model Development and Evaluation, Exploratory Data Analysis, Data Cleaning and Visualization, Data Structures and Algorithms, Problem-Solving

Education

Lovely Professional University

Phagwara, Punjab

Bachelor of Technology - Computer Science and Engineering — CGPA: 9.43

Aug 2023 - Present

St. Joseph's Senior Secondary School

Kanpur, Uttar Pradesh

12th — Percentage: 85.6

Apr 2021 – Mar 2022

St. Jospeh's Senior Secondary School

Kanpur, Uttar Pradesh

10th — Percentage: 95.6

Apr 2019 – Mar 2020
